

## Siôn Aled Jones – Computer Science Student

Telephone: 07926503587

Email: [sionaled27@hotmail.co.uk](mailto:sionaled27@hotmail.co.uk)

Home Address: 4 Cwm Llewenni, Denbigh, Denbighshire, LL16 4AP

## Professional Profile

---

Young, highly motivated, and ambitious Undergraduate student at Bangor University, due to graduate in 2021. Aiming to use skills and knowledge in a career where I can make a difference and help others. An in-depth knowledge of Computer Science along with my hard-working mentality, my drive to succeed and ability to communicate well with others will make me a valuable asset to any team.

## Core Skills

---

- Proficient in use of Microsoft Office applications
- Experience of using many different Programming Languages and tools
- High level understanding of mathematics through studies as an Undergraduate and A-Level
- Effective team player who is a good listener, can lead when needed
- Good time management skills and can set realistic deadlines for myself to keep organised and maintain a high quality of work
- Can work well individually whilst under pressure and can adapt to suit any situation
- Fluent Welsh language speaker, confident in reading, writing, and speaking

## Employment History

---

### **Brookhouse Mill, Denbigh (October 2013 – Present)**

- Worked as a part time chef in a high energy, faced pace kitchen
- Work alongside the head chef to produce a high standard of food in a highly respected restaurant
- Run the kitchen if the Head Chef was not present and maintain the high standard expected
- Maintain a clean and hygienic working environment by following health and safety procedures given
- Motivated worker and have taken interest in cooking outside of the workplace

## Education

---

### **Bangor University (2018 – 2021)**

- BSc Computer Science degree due to be completed in May 2021.
- Achieved First Class Degree mark in my Second Year of Study
- Project manager for team of 6 in a second-year module where we were tasked with creating a product for a given company. Organised meetings with the team, kept meeting minutes, set deadlines, and kept communication with our tutor and the company we worked with to ensure a high quality of work
- Final Year Dissertation – Developing a Visual Aided Early Intervention through IOS for Children with Autism Spectrum Disorder

## Ysgol Uwchradd Glan Clwyd (2011 – 2018)

### A Level Studies

- Welsh Bacalaureate – A
- Geography – C
- Mathematics – D
- Computer Science – D
  
- Final year project in Computer Science, I created a program that allowed the local football team to keep tabs on all key information in the club, such as being able to add, update and delete players and coaches on the roster or input the result of games played, along with key statistics such as who played, who scored, any yellow or red cards etc, which would then update on the database. Programmed using Java and SQL
  
- Appointed Deputy Head Pupil in final year of study by fellow pupils. Represented the school on many different occasions, including when Carwyn Jones, the First Minister of Wales came to officially open the new school. Also had a say in many school policy decisions
  
- Captained the school football team on a few occasions in my final year
  
- Received the Tony Betts award in final year for my contribution to the sports department
  
- As part of Welsh Bacalaureate course work, helped to coach a local children’s football team for 30 hours over the space of around 3 months

### GCSE Studies

- 10 A\* - B Grades, including A\* in Applications of Mathematics, A in English Literature and A in Additional Science

## Personal Information

---

Age: 21

I have held a full, clean UK Driving License since February 2017

I have a keen interest in many sports including football, cricket, golf and rugby

I have had a strong interest in music for many years and have been to many concerts in this country and overseas. Since being in University I have taught myself how to play the guitar
