

Summery + Hobbies

I consider myself to be an upfront, bubbly and outgoing 21 year old who is always focused on the job at hand and someone who likes to get things done quickly and effectively. An Excellent Problem solver who is quick thinking with good technical ability if there is a problem that I cannot over-come I will always use the internet and other resources available to me to research and learn how to solve the issue.

My main hobbies include playing games with friends such as Minecraft, Rocket league and other online multiplayer games, I also enjoy my free time by working out or going on walks or travelling.

Education

Predicted Degree Result from Bangor University

2:1 in CIS (Computer Information Systems)

Grades from the first two years are as follows:

2nd year:

ICP-2052 Application Development 51%, ASB-2112 Business Information systems 60%, ICP-2221 Database Systems 1 63%, ICP 2801 Game Development 44%, ICP 2005 Graphics Design 48% ICP 2225 Knowledge Manage & Info Retrieval 45%, ICP2302 Software Hut 62% ICP 2002 System Administration & Maintenance 42%.

Career:

McDonalds (2019- Present): McDonalds has taught me how to effectively communicate with a team and demonstrates my ability to work with others affectively for long hours.

Voluntary Work(2016-2018): Over a period of about two years I undertook a combined total of two months' worth of work experience working as a volunteer at Whittington Castle. The customer service roles I performed required me to work flexibly according to the needs of the business and included stall management, financial administration and parking assistance.
