About me

Hello World! I am a passionate programmer currently studying my Bsc in Computer Science and I am proud to be part of the technology industry. I have taken it upon myself to learn as much as possible in recent years and developed my skills. My career aims are to improve my current knowledge as well as learn new skills build a successful career not just have a job. Having a career where each day brings its own unique challenges. Hoping to do a PhD that will open avenues in teaching and research.
