## Personal statement

---

A final year student enrolled on the BSc programme in Computer Science at Bangor University with a predicted grade of 2:1, looking for a position as a software developer or similar to utilise my programming skills and knowledge and also help me to further develop these skills in a practical environment.

My current career goal is to eventually become the leader of a development team and actively contribute to the success of the business I work for.

## Education

---

### Bangor University
